Personal Portfolio Website

1. Introduction

The Personal Portfolio Website is a website designed to display personal information, educational qualifications, technical skills, hobbies, projects, achievements, resume, and contact details. It helps students present their abilities and work in a simple and professional way. The website is developed using HTML and CSS to provide an attractive and user-friendly interface.

2. Features

- Personal Profile: Displays personal information and profile details.
- Educational Qualifications: Shows educational details.
- Technical Skills: Displays programming and technical skills.
- Hobbies: Provides information about personal interests.
- Projects: Displays completed projects and work.
- Achievements: Shows awards and accomplishments.
- Resume: Provides a section for resume details.
- Contact Information: Displays contact details.
- Attractive Design: Uses images, colors, navigation, and CSS styling.

3. Applications

1. Student Portfolios: Helps students display their skills and academic work.
2. Job Applications: Helps job seekers present their qualifications.
3. Project Showcase: Displays completed projects in one place.
4. Professional Profile: Helps create an online professional identity.
5. Educational Projects: Demonstrates HTML structure and CSS styling.

4. Future Scope

- Add a downloadable resume.
- Include more projects and achievements.
- Add a contact form with backend connectivity.
- Integrate social media profile links.
- Improve the design using advanced CSS animations.
- Add JavaScript in the future if interactive features are required.

5. Source Code

```
<!DOCTYPE html>
<html>
<head>
  <title>My Portfolio</title>

  <style>
    body {
      font-family: Arial, sans-serif;
      margin: 0;
      background-color: lavender;
      color: darkslategray;
    }

    header {
      background-color: indigo;
      color: white;
```

```
    text-align: center;
    padding: 25px;
}

nav a {
    color: white;
    text-decoration: none;
    margin: 10px;
    display: inline-block;
}

nav a:hover {
    color: yellow;
}

section {
    padding: 30px;
    text-align: center;
}

.home {
    background-color: white;
    margin: 20px;
    border-radius: 15px;
}

6. Output Screenshots

My Education

School

My School Name

School Education

College

My College Name

B.Tech Student

My Technical Skills

HTML

Creating Webpages

CSS

Styling Webpages

Python

Basic Programming

My Hobbies

Painting

I love drawing and painting.

Music

I enjoy listening to music.

My Projects

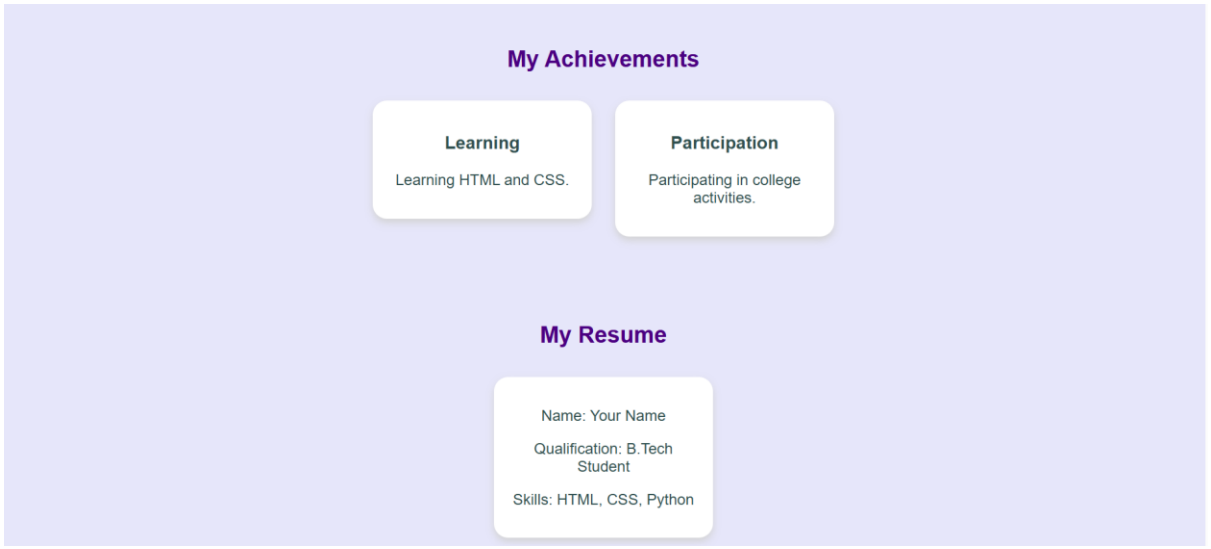

Portfolio Website

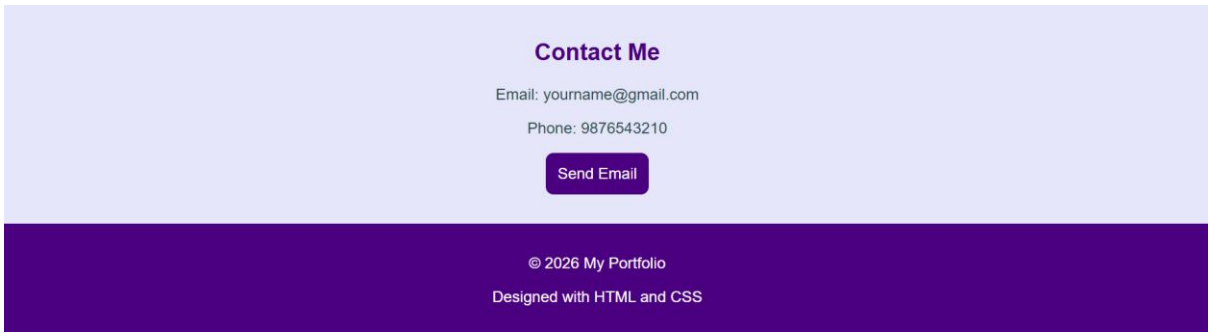

A personal website using HTML and CSS.

College Website

A simple website for a college.

7. Conclusion

The Personal Portfolio Website demonstrates how HTML and CSS can be used to create a personal website. It provides an organized display of personal details, educational qualifications, technical skills, hobbies, projects, achievements, and contact information. This project helps develop practical knowledge of website design and can be enhanced with additional features in the future.

Technology Used: HTML and CSS only. JavaScript is not used.
